We have a track record of establishing and selling companies in multiple jurisdictions, setting up registered offices, and putting in place every aspect of local administration and legal assistance. Our vast network and global corporate governance gives us a strong base on which to assist enterprises, private equity firms, and a wide variety of corporate clients to find a suitable solution. Our project management team provides a uniquely broad range of services and solutions, providing the people, processes, and products that help our clients get the most from their international business.

Oruga Group services are designed to suit the needs of today's international business community. Working with us is easy, fast and painless, gives our clients an opportunity to do what they do the best – manage business processes, not the technical part of it.

Asset allocation and Investment

Our highly qualified and experienced team members bring specialist input into asset management and real estate ventures for our clients, whether this be the acquisition of portfolios, new developments or revitalization of problematical assets.

The services range from Project and Cost Management through to Technical Due Diligence and Asset Management and advice on redevelopment and optimization of large real estate portfolios. Our clients are both international and local investors, developers and financial institutions.

Within the project management and construction consultancy markets Oruga Group has demonstrated its credentials as a highly-respected and extremely capable service provider: a position attained in all sectors where we operate.

Our professional capabilities are demonstrated through expert advice and management support for our clients – from the decision-making phase at project outset through, procurement to completion and commissioning of the new property.

During all phases of our projects, we maintain a continuous dialogue with our clients. In order to ensure that their requirements are identified, solutions are sought and implemented to help assure success of the venture.

The result of many years of wide-ranging experience gained allows Oruga Group to be able to offer a high-standard of professional service. Our interdisciplinary expertise and knowledge of international and local markets are the basis for providing tailor-made and cost-effective solutions for our clients.

Asset allocation and Investment

Project management

Our main focus is on the coordination and monitoring of all phases of our projects. Through our close cooperation with the client, we are able to convert their wishes into binding commitments from the project team, integrate these into the project phases, but nevertheless remain at all times alert to possible alternative solutions.

Cost Management

In order to ensure stringent control of costs, our Cost Management systems are designed to ensure that costs are accurately calculated, expenditure is monitored and if required, options and alternatives are considered on a continual basis.

Technical Asset Management

The Technical Asset Management service is designed to improve and optimize the financial performance of real estate portfolios and encompasses the complete life cycle of the property: from the acquisition through the operation and on to the sale of the property.

Asset allocation and Investment
